### Description of Music Aesthetics

This course is designed for students who seek the opportunity to extend their musical understanding, heighten music listening skills, and increase their ability to respond more fully to music. Experiences will include opportunities to experiment with sounds, analyze famous compositions representative of most styles, and inquire into music's connections to contemporary life, history, and cultures. *No prerequisite course is required.*

### Explanation of Standards

The Utah State Music Core divides the goals of music education into four music standards which are Perform, Create, Listen/Analyze/Evaluate, and Discover Meaning. These four divisions or standards organize the curriculum into manageable and related units and guide the student through a rich experience with music. Each standard is broken into objectives, each objective into indicators. A scoring box is placed to the left of each objective. The student scores his or her achievement within each objective using a number ranging from 0 to 10. A legend is provided wherein the student and teacher tally both the average score from the objective boxes and the total number of indicators the class has studied.

Playback/recording technology is required.

Listed below are all of the courses presented in the Music Core Curriculum. There are additional, elective courses available in many schools.
